All Other Offenses	91	2	93

Counting Rules

Counts on this page are based on the month of the incident or arrest, rather than the month the incident was submitted. If the incident date is unknown, the report date is used. Counts are subject to change as data are updated.

Offense counts are calculated based on the number of offenses for each victim (per incident) for Crimes Against Persons and the number of unique offense types (per incident) for Crimes Against Property and Crimes Against Society. For burglary and motor vehicle theft, offense counts are based on the number of premises entered and the number of vehicles stolen, respectively.

Victim counts are calculated based on the number of victims connected to each unique offense type in an incident. For Crimes Against Persons, the number of victims will be equal to the number of offenses. Victims will be counted more than once if they are connected to multiple offenses.

Arrest counts are calculated based on the number of arrestees listed on a Group A or Group B incident. Each arrestee is counted only once per incident.

Arrests are categorized based on the specific Group A or Group B arrest code submitted by the agency, rather than the incident offense code. Since agencies only submit the most serious arrest charge for each arrestee on an incident, arrest counts are not indicative of the number of charges.

Incidents are cleared in one of two ways: by arrest or by exceptional means. Clearance counts are based on the number of offenses cleared in a given month regardless of when the offense occurred, and can therefore be greater than the number of offenses in a given month. In incident-based reporting, the first arrest on an incident, or an exceptional clearance, will clear all offenses associated with the incident.
